8:30 am Registration for Morning & Full Day Registrants - Continental Breakfast

Sponsored by Integration Point  
Global Trade Software

9:00 am Opening Remarks

Mary Anderson, President,  
I.E.Canada

9:10 am **The New Partners in Protection (PIP) Program: Are You Ready?**

Larry Villeneuve, Grace Gregoire,  
Anie Pulsifer and Glen Pereira,  
Pacifica Intelligence Officer,  
Canada Border Services Agency  
(CBSA)

The new PIP program will come into effect on June 30, 2008! Current members will not be grandfathered into the new PIP program and will have until December 31, 2008 to re-apply. The modernized PIP program is closely aligned with the C-TPAT program in the United States. What were once recommended security requirements will become mandatory. PIP members will have to implement new, more stringent security measures, such as container seals. They will also have to ensure that their supply chain partners develop security processes and procedures consistent with the new PIP security criteria. Before being accepted into the new program, applicants will have to submit a new security profile to the Canada Border Services Agency, sign a Memorandum of Understanding and undergo a site visit.

Rick Pyke, Trade Consultant,  
Cole International Inc.

In this hands-on workshop, you will learn about:

- The new Minimum Security Requirements
  - Physical Security and Access Controls
  - Procedural Security
  - Container, Trailer and Rail Car Security
  - Data and Documentation Protection
  - Personnel Security
  - Security Training and Awareness
  - Business Partner Requirements
- The new Memorandum of Understanding
- Application Procedures
- Site Visits: What's involved?
- Benefits of the New PIP
- Mutual Recognition with C-TPAT: What does it mean?
- Cancellation and Suspension Policies and Appeal Procedures

You will also receive tips and advice from industry experts on how to get management buy in to join PIP, assembling and preparing your team, completing your security profile, preparing for a site visit and developing and implementing a security program. Higher cost does not necessarily mean better security. You will have the opportunity to hear about and ask questions on how to get the biggest security bang for your dollar!
