

“Food Supply Chain Safety” 4th Annual Food Forum

February 18-19, 2009

Renaissance, Toronto Airport Hotel, 801 Dixon Rd., Toronto, Ontario

Food Safety: Is your supply chain designed to withstand the challenges we face today?

I.E.Canada's 4th Annual Food Forum is the opportunity to learn from the decision makers, suppliers, retailers, importers and exporters who control our food chain. Speakers from Health Canada, the Canada Food Inspection Agency (CFIA), the U.S. Food and Drug Administration (FDA) and Industry will address the issues and challenges being faced by those involved in Canada's food supply chain. Attendees will hear the latest policy updates, discuss practices with companies who are leaders in the field, and have an opportunity to network with other businesses who share your concerns.

Topics to be covered at the Food Forum include:

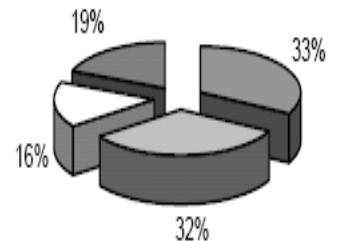

- Safety
- Regulation
- Labelling
- Compliance

For registration information, please contact Jesse Arsenault at 416-595-5333, extension 37, or visit our website at www.iecanada.com.
