

Preparing for the HST

Breakfast Seminar—Vancouver Chapter
March 10, 2010

KPMG LLP—777 Dunsmuir Street, 9th Floor, Vancouver

PST-GST Harmonization — Planning Your Next Steps

Companies that do business in British Columbia will be affected by the harmonization of the provincial sales tax (PST) with the federal goods and services tax (GST) to create a single, value-added harmonized sales tax (HST) at a 12%, effective July 1, 2010.

Businesses need to start preparing for the transition and determining the resources they will need to make the necessary changes as they plan their financial budgets, capital expenditures and human resource allocations for the coming year.

This session will provide an up to date briefing on the HST focusing on key issues for **importers and exporters**. The presentation will consider the HST transitional rules, cash-flow implications, and other compliance and legal issues.

Businesses will have to make several adjustments to their systems to follow the transitional rules. Those that export their items will also have to allow for the extra burden that HST will place on their cash flow. They should investigate and implement planning strategies that will help minimize the impact of the HST on their business.

Register today. Facing these challenges and getting an early start on the transition could put you ahead of the competition.
