

## I.E.Canada Attends ICPA Conference

The International Compliance Professional Association (ICPA) held another successful Annual Conference in March 2010 in Orlando, Florida. ICPA is a U.S. based non-profit organization of global professionals whose mission is to provide networking resources to compliance professionals.

As a partner association of I.E.Canada, Joy Nott, President, and Amesika Baëta, Committee Director attended the conference on behalf of the interests of I.E.Canada's members and to support ICPA's endeavors and mission. With a table top, Joy and Amesika were able to network and meet ICPA members from across the U.S. and Canada. It was a great opportunity for I.E.Canada to relay the work of the association and to hear the interests and concerns of U.S. companies in relation to Canada and Canada-U.S. relations generally.

Joy and Amesika were thrilled to see other I.E.Canada members in attendance including, Dave Bosse, an I.E.Canada Board of Director, and Cheryl Corbeil of Cole International Inc.; Steve Bunda of Expeditors Canada; Vincent Routhier of Gottlieb & Associates; Carol Buckton, an I.E.Canada Board of Director, and Barbara Klaptocz of Siemens Canada; and Darrel Pearson of Bennett Jones LLP., another I.E.Canada Board of Director. Darrel, who is also a Canadian Counsel to ICPA, presented a session at the Conference on Canadian audits (for a copy, [please click here](#)).

Following the successful 2010 Olympic Games in Vancouver, British Columbia and the gold metal win for the Canadian Olympic Men's Hockey Team in February 2010, Joy and Amesika raffled 2010 Olympic memorabilia, other Canadian goodies and VIP passes to I.E.Canada's 3-day conferences as prizes to ICPA members.

Amesika will be joining ICPA in June 2010 to help launch their first EU Conference in Amsterdam, Netherlands. Please stay tuned for more information.

I.E.Canada would like to extend a special thank you to Ann Lister and the ICPA team for their efforts and welcoming I.E.Canada to their 2010 Annual Conferences!
