

**Study on Volatile Organic Compounds (VOC) Content in Consumer
Products
Questionnaire for stakeholders**

Comments on the information requested:

- 1- Do you find the questions (tables) easy to understand?

- 2- If you find the questions difficult to understand, how would you modify them to make them easier to understand?

- 3- Is it easy for your company to obtain the information that is asked for?

- 4- How long do you think it would take your personnel to answer the questions?

- 5- Are there other questions that you feel are appropriate to be included in this study?

Participation with a consultant:

- 1- After reviewing the questions and considering that a confidentiality agreement would be signed with the consultant and Environment Canada, would you collaborate with a consultant to provide the information asked?

- 2- If your company would not collaborate, is it possible to know why?

- 3- Would your company prefer to provide the information directly to Environment Canada through a legal survey under the *Canadian Environmental Protection Act, 1999*?
